- Turn your Smartphone into a remote for Philips AV products
- USB keyboard connectivity for easy Smart TV and Web Browsing
- Skype™ ready to make high quality video call easily

PHILIPS

sense and simplicity

Highlights

Blu-ray 3D Disc playback

Full HD 3D provides the illusion of depth for a heightened, realistic cinema viewing experience at home. Separate images for the left and right eyes are recorded in 1920 x 1080 full HD quality and alternately played on screen at a high speed. By watching these images through special glasses that are timed to open and close the left and right lenses in synchronization with the alternating images, the full-HD 3D viewing experience is created.

DivX Plus HD Certified

DivX Plus HD offers the latest in DivX technology to let you enjoy HD videos and movies from the Internet direct to your Philips HDTV or PC. DivX Plus HD supports the playback of DivX Plus content (H.264 HD video with high-quality AAC audio in an MKV file container) while also supporting previous versions of DivX video up to 1080p. DivX Plus HD for true HD digital video.

USB keyboard connectivity

Internet browsing is now more convenient. Without having to turn on your PC/MAC, you can surf all you want - in the living room, on your widescreen TV. Simply insert your wireless keyboard dongle or wired keyboard's USB plug into your player's USB port, and you can use a Qwerty keyboard to travel the information highway. Smart TV browsing is also made easier, since a remote control only allows words to be keyed in using its nine alphanumeric keys. There is now no need to carry the laptop around or squint at your mobile device's small screen to enjoy Internet content.

Smart TV Plus

Philips home theater & Blu-ray player with Smart TV Plus offer you an array of enhanced features, including Net TV, SimplyShare & MyRemote. Net TV brings a wide range of online information & entertainment to your TV for services like video-on-demand. With SimplyShare, you can access photos, music & movies stored on your PC from the comfort of your couch. You can also use your smartphone/tablet to control your home theater via Philips MyRemote app.

Instant 2D to 3D conversion

Enjoy 3D movie excitement in your home using your existing 2D movie collection. Instant 3D conversion uses the latest digital technology to analyze 2D video content to distinguish between foreground and background objects. This detail generates a depth map that converts normal 2D video formats, into exciting 3D. Along with your compatible 3D TV, you are now ready to experience full HD 3D.

Skype™ ready

Add a new dimension to your calls and contact your friends and relatives as if you are there. Simply plug in a selected* Skype™ camera to your home theater or Blu-ray player and enjoy HD video and excellent sound quality from the comfort of your couch. Use your familiar list of Skype™ contacts from your current Skype™ account and start calling! Skype™ camera is sold seperately.
